That the Council call tenders for the Rice Lake tunnel and that the City Engineer be instructed to prepare the necessary papers was again brought forward and after a discussion in which the Mayor and all the Aldermen participated was put to the vote.

The Mayor then declared the previous question carried.

Alderman Irwin gave a report of what had transpired at Victoria on Friday last in connection with the application for the passing of the location map of the Pacific Great Eastern Railway. He stated that previous to going down to the office of the Minister of Railways the City representatives had a meeting with the Vice President and the Chief Engineer of the Railway, to whom they mentioned the criticisms which had been passed upon the plan at the Special Meeting on Thursday last, viz: That right of way should be 100' wide instead of 60' and should be carried a short distance south. Both of these suggestions were given effect to before the meeting with the Minister of Railways and there was consequently no difficulty in passing the plans so far as the City was concerned. They were also passed with regard to the District of North Vancouver. The sitting was continued with regard to West Vancouver.

Alderman Irwin also reported that result of the sitting of the Railway Commissioners in City Hall, Vancouver on Saturday and Monday the 27th and 29th current. Plans of the proposed passenger subway 25' wide were passed, to run from the Vancouver ferry wharf to Alexander Street. The City of Vancouver were instructed to prepare plans and present them to the Board of Railway Commissioners for approval, and are to commence work within thirty days after such approval has been obtained. The final assessment of the costs was left over.

It was resolved that the matter of Tolosov & Varr contract be laid over until Thursday and that Messrs. Tolosov & Varr be asked to meet the Board of Works at 8 o'clock on that day.

Council thereafter adjourned till Thursday.

Signed: Wm. McNeish, Mayor
