Moved by Alderman Loutet, seconded by Alderman White and resolved that a detailed statement of the aims and objects of the Organization be secured from the Chairman of the Committee, the Council understanding that the primary objective was to be a rail connection from Vancouver to the Peace River.

Attention was drawn to portions of the concrete sidewalks throughout the City that had "bulged" during the recent frosty weather, following by the rain. Particular reference was made to the sidewalk on the North side of 8<sup>th</sup> Street and 15<sup>th</sup> Street. The Engineer states that he would look into the matter.

The Mayor reporting on an interview he had with the Local Manager of the B.C. Electric Railway Co. regarding the installation of a gas service in the City, stated he had been advised that the contractors had been looking over the ground, and that an application was shortly to be made to the Bridge Co. for permission to carry the necessary pipes across the Second Narrows. The Company's arrangements seem to be well in hand for a start being made with the work.

A Ratepayer raised the question of the wisdom of removing rocks left on the City Streets by the Grader as far South as Fifth Street, and hauling them as far North as the fill at Mahon Avenue Bridge between 18<sup>th</sup> and 19<sup>th</sup> Streets.

It was explained that the rocks had to be removed, and a fill had to be made at this point to save the expense of constructing a new bridge, at a cost of several thousand dollars. The ratepayer was advised that the Council had given the matter its full consideration before the work was decided upon.
