AND WHEREAS the new subsection (3a) provides that the assessment of railway tracks shall include the assessment of the right-of-way upon which the tracks are laid.

Requesting endorsement of the following resolution in connection with Subsection (3a):

BE IT RESOLVED that the Provincial Government be and is hereby urged to approach the Railway companies with the object of obtaining from them an agreement that pending the amendment of the new section (3a) the companies will waive the matter and agree to the tracks being assessed as at present provided and allow the various municipalities to assess and tax the rights-of-way as they have done heretofore.

AND BE IT FURTHER RESOLVED that failing an agreement as above the Government be and is hereby asked to arrange a Fall session of the Legislature or an early session in the year 1931 in order to amend the enactment before the various assessment rolls are confirmed.

And that copies of this resolution be forwarded for support and endorsement to the various municipalities affected by the enactment and to the Attorney-General,

The report concluded by stating:

"I beg leave to state that in my opinion it is in the best interests of the City to keep the collection of garbage under the day labour system as at present organized, owing to the various demands made on the department by the general public from day to day, such as extra calls, extending the service, changing the locations of dumps from time to time, thereby verifying the length of haul. All these changing conditions would require continual extras on, or re-adjustments of, any contract.
